### SKILLS

- Stress tolerance
- Teamwork, multitasking and attention to detail
- Responsiveness

### LANGUAGES

- Ukrainian (native)
- Russian (native)
- English (level B2)
- Bulgarian (level A2)

I have been developing for about 4 years. On my own experience, I tried different programming languages, and settled on Front-end development, as it gives me the most pleasure. I am also a stress-resistant person, I can fully devote myself to the project, and I am glad for teamwork. I studied React for 7 months and achieved the fact that I know a couple of hooks, several libraries, and the npm package manager.

### EDUCATION

Bachelor, Software Developer  
University from Paisia Hilendarskikh, Plovdiv Bulgaria, 2022 y.  
(The following languages were passed Java, C++, C#, PHP, Javascript, CSS, HTML, ASP.net, MySql)

Bachelor, Computer engineer  
OTK ONAKHT, Odessa Ukraine, 2018 y.

### SKILLS

**HTML** - Over a year of work experience,  
**CSS** - Over a year of work experience,  
**SCSS/SASS** - 8 months work experience,  
**Javascript** - I have been using for 8 months, I know the DOM library,  
**jQuery** - 3 months work experience,  
**React** - I have been developing websites using this framework for 7 months now, I also know a few hooks,  
**Redux** - Used with React, 2 months experience,  
**Webpack** - I use with React,  
**Git** - Experience 3 months.

### PORTFOLIO

You can also see my portfolio of projects. There will be projects that I wrote in React, I use different libraries for this, and there will also be projects that I just laid out - <https://sinedviper.github.io/portfolio/>
